

# Flir One Edge

## Now available at Madison Electric

The remote design of the new FLIR ONE Edge enables the thermographer to put the camera inside a sealed space, such as a wind tunnel, or to monitor dangerous targets remotely and safely. Don't do an inspection without it! Order now [www.madisonelectric.com/flir/](http://www.madisonelectric.com/flir/)

### Key Features

- Work with camera attached or detached from mobile device
- Look over, under and around obstacles and into difficult to reach areas
- View and control capture remotely at over 5 meters (16 ft) distance
- MSX makes FLIR Edge series imagery easier to pinpoint issues
- VividIR further improves ability to detect and understand issues by removing blur and improving detail (Edge Pro)
- FLIR Ignite connectivity within FLIR ONE App enables easy sharing, backup, web editing and reporting and future expansion possibilities
